SAFETY STARTS WITH YOU

Laboratory Practices

When working in a laboratory, YOU MUST KNOW:

1. Emergency Evacuation Route
   - ✓ out of the lab
   - ✓ out of the building
   - ✓ meeting place

2. Locations of the following:
   - SAFETY SHOWERS
   - FIRST AID KIT
   - EYEWASH STATION
   - SPILL RESPONSE KITS

3. Safety Data Sheet for each chemical being used and the hazards associated with it.

If you have ideas for the Stall Street Journal, contact: weiyu.zhang@uconn.edu or gillian.macusi@uconn.edu
